

July 9, 2020

Hello,

My name is Sabrina Davis. I am a Nurse Practitioner, Certified Mental Health Specialist, and a member of WalkNFaith. I am saddened when I see the state of our communities. Over the weekend, a four-year-old was murdered a few blocks away from our church and organization. We, the Pastor's Board of North Saint Louis and WalkNFaith, are requesting a meeting with the mayor's office and public safety officer, to address our community initiative. This initiative will decrease crime in our neighborhoods, increase job training and employment, promote mental health screenings and treatment, and provide family-centered activities to our residents and neighbors.

Please feel free to email or call us at your earliest convenience.

Thank you,

Senior Pastor Richard Hayes  
Sabrina Davis, MSN RN  
WalkNFaith, Inc.  
314-323-7116

to me

Also, this conversation needs to be discussed openly with our neighborhoods and residents. Please consider the mistrust that exist in the minority communities and public.

We need to fund community initiatives that will bridge the trust between those protecting our communities and the residents.
